IDEA

Dear retail partners and friends,

The new STABILO catalogue will show you once again how people of all ages can be inspired to write or draw, or to work passionately with colors. Look forward to surprising new products and unusual ideas.

We are particularly proud of the new school fountain pen we're adding to our EASY Family: STABILO EASYbuddy. The STABILO ergonomics professionals used every ounce of their expertise to create this pen. It will be the best buddy of schoolchildren between the ages of 8 and 10 in their search for individual and efficient handwriting. Because, after learning the letters and gaining their first experiences with writing, it is important for them to develop legible handwriting and an optimal, relaxed pen hold. Thanks to its ergonomic shape and a nib that glides across paper, this fountain pen almost writes on its own. This makes it easier to concentrate on the content of what is being written and thus speeds up learning progress.

We're proving once more that STABILO is the first choice for trend-oriented fashion fans – and in many different ways, too. For example, we recognized the current trend for pastel shades early on and made it possible for you to enthruse your customers with a wide range of pens. The STABILO point 88, Pen 68, BOSS ORIGINAL and BOSS MINI as well as the pointMax now also come in soft and gentle pastel colors. Many STABILO pens are also brilliantly suited to the popular pastimes of many creatives: hand lettering, sketchnotes and Bullet Journals® show that, even in the digital age, analogue pens and colors never go out of fashion. STABILO point 88, Pen 68, pointMax and SENSOR are very popular on the DIY-scene. What's more,

with the STABILO BOSS MINI Pastellove you get a special edition that's right on topic. And the Colorful Ideas set with mini versions of STABILO point 88 and Pen 68 in an unusual light bulb box symbolises what creativity really means: the right idea at the right time!

Last but not least: one more highlight from our innovative writing instrument developers – but not for everyday use. The STABILO ErgoPen is a digital pen that provides evidence-based support for occupational therapists, thus increasing their efficiency. When used, it detects anomalies in the patient's writing motor skills. The recorded movement data is then transmitted to the STABILO ErgoPen app. A quick analysis can thus be used as a basis for targeted therapy. The inner workings and the capabilities of the app make the STABILO ErgoPen an innovative tool for the everyday work of occupational therapists.

As you can see, the way the writing instruments industry is developing – the way the digital and analogue worlds are increasingly complementing one another – is as exciting as ever. With STABILO you'll always be at the cutting edge. I wish you every success.

Best wishes,

Sebastian Schwanhäuber
Managing Director STABILO

CREATIVE LIFESTYLE

PASTEL TRENDS, HAND LETTERING, SKETCHNOTES & BULLET JOURNALS®

MORE PERSONALITY WITH STABILO COLORS.

The world is becoming more and more standardised. That's why a great many people are breaking out and creating their own individual ways of expressing themselves. Hand lettering, sketchnotes and Bullet Journals® are now very much in fashion – they allow thoughts, ideas and feelings to be recorded in a completely unique way. STABILO offers the right pens, pencils and colors for all writing and coloring techniques. Soft pastel shades have become particularly popular as they expand the standard color range with subtle, emotive nuances

LOVELIER WORDS THROUGH HAND LETTERING.

The hand lettering trend is conquering the creative world: messages, sayings and quotes written in the loveliest of fonts, adorned with artistic embellishments, in magazines, on postcards or on café blackboards. Unlike calligraphy, hand lettering is not about forming perfect letters, but about crafting and creating. In this digital age in particular, hand-written messages can be full of personality and charm. You only need a few tools: paper, fineliners, felt-tip pens and a highlighter.

IDEAS BEGIN WITH SKETCHNOTES.

The creative visualisation of content simply helps you to remember information more easily. Lettering, scribbles, structures – anything is possible. And sketchnotes are even more impressive when in color. From school-kids to managers, more and more people are successfully using this writing and drawing technique, and bringing fun into their everyday lives.

BE

MORE ORGANISED WITH A Bullet Journal®.

Turn a simple notebook into a creative organiser. What you put into it is your own business. No rules to follow! A bulleted index lists your content: to-do lists, diary, travel details, birthdays, ideas, reminders, etc. This concept was devised by New York designer Ryder Carroll (bulletjournal.com) – now it's being used by many people throughout the entire world.

LEO IS UNSTOPPABLE!
And trains his writing motor skills quite incidentally.

Because we love writing

Pens and writing have always been a key part of who we are at STABILO. We specialise in ergonomic shaped pens and pencils specifically designed for left and right handers. With STABILO Education we want to help make the process of learning to write easier.

„Nobody can read your scrawl.“

As recent studies indicate, this complaint must be familiar to many children. A study* conducted by the Schreibmotorik Institut and the German Union of Teachers revealed: 51 percent of boys and 31 percent of girls are having problems with their handwriting. This can have a great impact on their performance in school. Therefore experts recommend training the basics essential for writing.

FACTS

- unique, practice-oriented concept
- takes account of the latest educational standards
- scientifically accompanied by the independent Schreibmotorik Institut

*Source: Survey of the German Union of Teachers (DL) and the Schreibmotorik Institut e.V., September 2014 - March 2015

Writing is motion

Before children learn to write, they need to understand which movements are necessary to form the letters. Also the writing pressure, speed and rhythm are crucial parts of handwriting. The interaction of these aspects is called writing motor skills. Scientists at the Schreibmotorik Institut explore how to support the children's writing motor skills ideally and individually. Inspired by their results, STABILO Education creates material for pre-school, primary-school and at home. The aim is to give children a good start into learning to write.

Applying pressure	Control speed
Press firmly and lightly	Vary between fast and slow
Practice shapes	Find the rhythm
Handle the pen with confidence	Make flowing movements with the pen

Reaching the goal playfully

Learning to write is almost as difficult as learning to play a musical instrument. To engage with children and to ensure that they pay attention it is important to fill learning with fun! The concept of STABILO Education is unique as it's based on motor skills required for writing. Having fun whilst learning these is key. Whether in pre-school, primary-school or at home, digital or analogue: STABILO Education makes learning to write easier and faster for children in every situation. So that every child develops a flowing handwriting and a passion for writing.

LEARNING TO WRITE

STABILO® EASY Family OFF TO AN EASY START.

LEARNING TO WRITE SHOULD BE FUN.

Learning to write in kindergarten and school is important, especially when starting out. Better ergonomics make practising easier and learning more enjoyable. That's why STABILO has developed special pens suited to age and hand size – perfect support from the first attempt at writing in kindergarten, all the way to improving writing skills in primary school. Versions for left- or right-handers ensure writing comfort and prevent premature fatigue. Unique grip moulds allow the correct finger position. Starting school is exciting enough, so we do everything we can to ensure that the children feel comfortable when they do.

BEST GRADES FROM THE EXPERTS

• Prof. Dr. Ing. Ralph Bruder, Head of the Institute of Ergonomics at Darmstadt University of Technology and expert in product ergonomics:

• Dr. Christian Marquardt, Fine motor skills expert, Munich-Bogenhausen hospital:

"The prescribed gripping position provides children who are learning to write with support in practising their own optimal gripping position."

"By building children a bridge between drawing and writing, you make it considerably easier for them to develop flowing handwriting."

"STABILO EASY Start products performed better in tests. Why? There are versions for left- or right-handers, along with ergonomic grip moulds which give children's hand something to hold on to."

"As a scientist I can recommend STABILO EASY pens. Parents make an excellent choice for their kids with these products."

CLEAR SALES ADVANTAGES

- STABILO: the leading innovator in ergonomics.
- Writing and drawing ergonomics: the sales pitch for discerning customers.
- One logo, one product range, one unified PoS presence.
- Clear guide for application and left- or right-handers on the packaging.
- High quality product experience.
- Sales support with extensive information materials such as booklets and in-store posters.

STABILO® FUN

DIVE INTO THE COLORFUL WORLD OF FUNtasy!

SURPRISE INCLUDED.

School children aged between 9 and 12 are especially curious. They want to discover new lifestyles, acquire knowledge and communicate with friends. But they should still have fun in the process. STABILO FUN is therefore much more than just a pen. Because in every pack (whether pen or refill) there are cool and helpful hints for kids to collect. For every theme world there are also surprise stickers. They can be collected, swapped or kids can use them to doodle around.

DESIGNED BY THE TARGET GROUP.

What really matters to school children aged 9 to 12? We asked the target group directly and together with them we developed the five color worlds for the STABILO FUN refill. From now on "King Colorful" rules the school books: For serious moments there's erasable "BE CLEVER!" blue, black says "STAY COOL!", red shouts out: "BE HAPPY!", "FEARLESS" turquoise will embolden the writer, and "IMAGINATION" of course has to be purple.

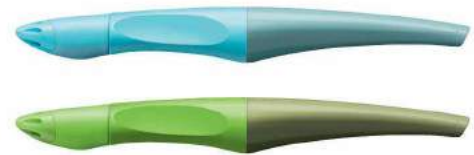

CATCH COLLECTING FEVER.

Once you start, you can't stop – that's exactly what makes the passion for collecting STABILO FUN. The refills contain different stickers and hints which means you can enjoy regular, sustainable sales as well as customer loyalty. By the way, parents also think STABILO FUN is great. Because it doesn't just promote creativity and personality, but the ergonomic design supports a more relaxed way of writing for kids. So much FUN! That's typically STABILO.

STABILO® FUN

Ergonomic rollerball

LEARNING TO WRITE

HAVE FUN: PEN + HINTS + STICKERS.

Target group

- School children aged between 9 and 12, who like to collect and want to learn more.

Product features: Pen

- Rollerball pen with ergonomic design.
- Grip zone made from non-slip material.
- Relaxed hold prevents premature muscle fatigue and pain.
- Easy handling means neat and tidy handwriting – doesn't blot, doesn't scratch.
- Pen design in 3 different color combinations.
- Available with royal-blue erasable ink suitable for school in medium 0.5 mm.
- Refillable with STABILO FUN Refills in 5 different colors – changing the ink color is now quicker and less messy thanks to the new writing tip on every new refill.
- Surprise in every pack: Collectable hints and stickers for the CLEVER theme world.
- Stickers are perfect for personalising the pen or for creating personal doodles.
- Cap stacks on the end of the pen.

Product features: Refill

- Royal blue erasable ink suitable for school as well as black, red, turquoise and lilac in medium 0.5 mm.
- Surprise in every pack: various tips and stickers to collect for 5 different theme worlds – COOL (black), HAPPY (red), CLEVER (royal-blue erasable ink, suitable for school), FEARLESS (turquoise) and IMAGINATION (lilac).

Dealer benefits

- The collectable nature of these worlds offers an effective sales narrative.
- Tips and stickers are highly desired collector's items for school children and increase turnover.
- Ergonomics is a key selling point for discerning parents.

HIGHLIGHTING

STABILO® Highlighters

4h DRY OUT PROTECTION FOR 100% CONCENTRATED WORK.

TECHNOLOGY AS A BENEFIT FOR USERS

- Thanks to the STABILO Anti-Dry-Out technology, all STABILO highlighters can be left with their caps off for up to 4 hours without drying up.
- This means less distraction from removing and replacing the cap and higher concentration on the content.

- The ink stays fresh, the pen can be re-used and the durability of the highlighter is increased.

STORY AS A DEALER BENEFIT

- STABILO is the first writing instruments manufacturer to focus on the "concentrated work" of customer benefits.

- Uniform selling point for almost all STABILO highlighters boosts sales.
- Unique product story increases interest and makes the decision to buy easier.
